S39 2007t OCLC Number: (OCoLC)179661980 Subject: Industries -- Energy conservation -- Law and legislation -- United States. Excerpt: . . . 15 The Department of Energys Industrial Technologies Program has a successful track record of helping U. S. manufactures trans-late research and development into efficient, cost-saving tech-nologies. By reauthorizing this program, the Industrial Energy Effi-ciency Research and Development Act, H. R. 3775, will support our nations industries in achieving energy efficiency while remaining economically competitive. It is very important that we direct this program to prioritize its efficiency efforts, targeting industry sec-tors, not individual businesses, where we can attain the best emis-sions reductions for our buck. While energy efficiency reduces our total consumption of foreign oil and gas, energy-storage progress will encourage development of clean, renewable energy sources. H. R. 3776, the Energy Storage Technology Advancement Act, can help promote consistent and sta-ble energy supply from renewable sources. That is a big hurdle, but it is one we cant clear soon enough. Finally, we shall be marking up the bill H. R. 1834, the National Ocean Exploration Program Act. Marine scientists tell...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
