This training circular, TC 3-09.31 (FM 3-09.31) Fire Support Training for the Brigade Combat Team Commander November 2013, describes fire support training for the brigade combat team (BCT) commander. The TC is not all inclusive but is intended as a quick study smart book for the BCT commander to use in developing his own strategy for fire support training based on Army Doctrine Publication (ADP) 7-0. This TC begins with a summary of the BCT's organization and capabilities for fire support and then provides an overarching view of what fire support training is needed at each echelon of the BCT with suggestions for who should conduct it and when. It also suggests appropriate doctrinal and training references. The primary audience for this training circular is the commanders of armor, infantry, and Stryker BCTs as well as the commanders of subordinate and supporting units of those BCTs. Others include those in combined arms chains of command, field and company grade officers, middle-grade and senior noncommissioned officers (NCO), and battalion and squadron command groups and staffs. This TC also should be of interest to the corps and division commanders and their staffs who may employ BCTs in full spectrum operations. Other Army organizations may use this TC to assist in their planning for training in support of BCTs. This TC includes a chapter summarizing the BCT's organization and capabilities for fire support; a chapter on fire support training for the brigade echelon; a chapter on fire support training for the BCT's subordinate battalions and the cavalry squadron, and a chapter on training for the BCT's organic fires battalion. Embedded throughout the TC are lists of questions...
