

Bulletin of the Bureau of Fisheries Volume 30

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

(Mitchell Kuhn III)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 198 pages. Dimensions: 9.7in. x 7.4in. x 0.4in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1912 Excerpt: . . . The general report of this survey, prepared by Dr. F. B. Sumner, Dr. Leon J. Cole, and the present writer, in zoology, and by Dr. Bradley M. Davis, in botany, has been completed and is in course of publication by the Bureau of Fisheries. 205 85079--Bull. 30--12 14 Biology at the Tortugas, Fla. , by the present writer (1908), only a few scattering species have received mention, and that incidental. The species of the West Indies have been entirely neglected, but Verrill has recorded a few from the Bermudas. While the Canadian Bryozoa have been fairly well studied through the efforts of Stimpson, Dawson, Packard, Hincks, Whiteaves, and others, and Smitts monograph deals with the species of the deeper waters of the Floridan region, the extensive tract from New England to Florida has remained entirely untouched, and the New England region has been treated very inadequately. A number of short papers and references to New England Bryozoa are found in the literature of the subject, but in nearly all cases these are buried in reports dealing with other groups, and hence are not readily accessible and are easily overlooked. The first of these to appear, and the first to be published in America as well, was a short list by Desor (1848) of species observed by him in the region of Nantucket. This paper is chiefly interesting because it contains the original descriptions of two of our most characteristic species, *Bugula turrita* and *Membranipora tenuis*. In...
