At the washer a new surface trestle was built and an electric motor installed to handle the refuse, also a new feed water heater was put in the boiler-house. The car unloader and jigs were also rebuilt, putting them in first-class condition. In the machine-shop a new turning lathe and a flue welding outfit was installed. A locomotive compressor was installed, to make compressed air for driving drills and riveting hammer, in the blacksmith-shop. Some important changes in the management were made. The mines being divided up into sections and an assistant mine manager appointed to take charge of each section. This has resulted in increased safety and efficiency. An arrangement was also made to have two hoisting engineers, one of them being in charge of the generators and compressors, while the other one hoists coal, alternating each hour. The No. 14 mine of the Consolidated Coal Company, Staunton, Macoupin County, has made the following improvements: A new shaker screen, 9 feet wide, driven by electric machinery of 440 volts, A. current, has been installed, from which the coal is delivered onto a traveling conveyor to be loaded into railroad cars and is so arranged that the discharging end of the conveyor may be lowered near the bottom of the car so as to reduce the breakage of the coal to a minimum. On the sides of this conveyor men are stationed to pick out any...
